DR. HARRY P. QUINN

There are many who envy you the first graduating class of the eighties, as you begin your journey into the future. They know that this is your time, a time of changes and apprehension perhaps, but also one of excitement and discovery.

Mankind has spent thousands of years in arriving at its present level of development, its ability to understand and utilize the fruits of science, learning and technology. Never before has there been an age such as this, when so many opportunities beckon those with the courage to pursue them. Never before have there been so many tools available for those with the knowledge, skill and ambition to use them.

Your possibilities are limitless. May you choose with wisdom and achieve confidence.

Principal

To the Class of 1980,

There are few occasions in life which match the emotional impact of your graduation from high school. For some of you the emotion is joy, for others - sadness. Some of you will anticipate the future with great expectations, others with fear and anxiety. Some of you already have plans for your future, while others are still wavering in indecision. Some of you are experiencing a mixture of all of these feelings and emotions.

To deny the emotional and personal significance of graduation is to deny the reality of your own adulthood. To desire that the high school days never end is to deny the fact that you must now accept responsibility for your own life. To regret that you had to go to school is to deny the fact that every person has a need to be taught.

Therefore, examine your present emotions and be aware of the significance they hold for your future. Don't regret the passing of your youth, and don't fear the onset of your adulthood. Bind together the best of the past and the best of the future to create that most unique of all God's creatures - you.

It is with sincere pleasure that I commend you, the Class of 1980. It has been my pleasure to get to know and work with you during the past two years. I regret that I didn't get to know each of you as well as I would have liked. I am certain the loss is mine.

Your achievements here at Tennent have been many, but your talents have barely been tapped.

Set your goals high, have dreams and ambitions, then work diligently for their fulfillment.

THE SENIOR CLASS SALUTES THOSE TEACHERS WHO HAVE BEEN AT WILLIAM TENNENT HIGH SCHOOL SINCE ITS INCEPTION IN 1954. WE ARE PROUD TO CELEBRATE THIS SILVER ANNIVERSARY WITH THEM.

Mr. Fry, much irritated by frequent and repeated demands for more money from his daughter at college, rebelled the day he received one in the same mail with a report of her poor grades.

The next letter from dear old Mr. Fry was brief and to the point:

Dear Daughter,

If you don't do any work for your professors maybe you will for me! At any rate there will be no money forthcoming until you send me the solution to the following:

The Vocational Agriculture class, once again, had a busy and interesting year. In addition to class room lectures during the year, valuable field trips were taken to complement the classroom experiences in an attempt to give the students first hand knowledge in specifics of the vast field of agriculture. Trips included Keystone Race Track, Pa. Farm Show, Hyline Hatcheries, and the Hatfield Packing Company, as well as a variety of local farms and state and county preserves. Students benefitted greatly by doing soil analysis, breaking sod down to its basest particles in testing for fertility. All in all, an excellent year, augmented by a fine group of students always ready and willing to do more than the required amount of work.

William Tennent Music

The Music Department strives to increase the awareness of the joys of music in our students. The Choral group has a repetoire of music that ranges from the music of the Renaissance to contemporary music. The Band performed at the school Winter and Spring Concerts. Selected students became part of the District Band or Chorus and had many opportunities to demonstrate their music skills. Some members of the band were formed into Ensembles that concentrated their music in selected instruments or selected types of music such as the Jazz Ensemble.

There is a place for everyone who wishes to experience the thrill of being part of a musical group. Underclassmen are encouraged to join our musical organizations.

Fine Arts

The Art Department has a wide range of experiences for our aspiring artists. Everything from the creation of sterling silver jewelry to acrylic paintings is taught. We teach the fundamentals to students who want to make some area of Art his/her work in life, as well as, the student who wants Art as an avocation and enrichment in life. We do have a few students taking art classes who must "fill a schedule." We believe this student is touched more in the experiences in of art because the experiences given are ultimately self enhancing and are not situations wherein failure or loss of confidence in their own unique worth is the result of end-products.

We had many talented students here at WTSHS and some who were just beginning to develop their talent. It is our responsibility to aid in the training of this talent so these students of the 1979/80 will join the ranks of the many Tennent graduates successfully employed in art positions.

It was a packed solid, problem solving year but a rewarding one to any student who applies himself to the understanding and creation of his/her own statement in art.

Industrial Arts

Do you remember those experiences we had in the industrial arts lab? Do you recall the first time we saw all those awesome and frightening machines in the metal and wood areas? Looking at the machines in the graphic arts area also gave us no clue as to how a printed piece of material could ever come from that strange equipment. The drawing area had drawings and prints that must have been made by engineers, rather than our own students. The electrical area had this maze of wires and electrical equipment which gave us some concern for our personal safety. The photo area seemed to have all these pictures, but how they ever were made seemed to be a mystery. As time passes these first impressions soon turned to understandings and skills. Remember the cradle, gun cabinet, high back rocker, round table, stereo cabinets and jewelry boxes in the wood area? Do you recall the log loops, candlestick holders, wrought iron chair and sofa, metal goblets and engine stands in the metal shop? How about those complex wiring projects in the electrical lab? You surely remember the architectural drawings we made of our dream house in our drawing class; but if only we could afford to have them built. Remember the fun we had at looking at each others pictures in photography class? Do you often wonder who finally had the "Rembrant?"

The experiences we had and the projects we made, will always give us a deep personal pride!

Occupational Education

Occupational Education is designed to give our students academic, vocational and social experiences. These experiences are provided for thorough academic instruction, along with working at a job on an alternate weekly basis and/or attending the area vocational Tech School.

The services offered gear the students to the "world of work." Occupational Education makes it possible for students to explore different skills and vocations, finding the one most suitable to the individual's needs and abilities. The students social world is expanded by providing the students with the opportunity to participate in a variety of social activities.

The goal of Occupational Education is to give students every possible opportunity to develop into an individual who is self sufficient and will hold a responsible place in society.

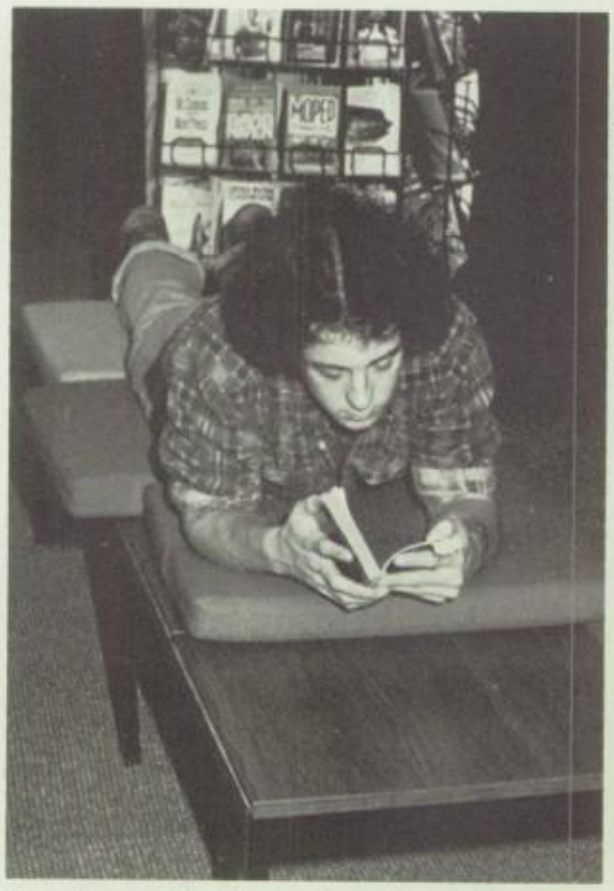
Neil is still hard at work in our library.

Terese helps Robin around the electronic sensor.

The library contributes to the educational program by providing books and other materials that are needed for assignments and recreational reading. The librarians work with staff and students to help them develop a competency in the use of the library. Through various learning experiences in the library, the library user becomes more aware of the importance of books and libraries in his daily life and develops a skill on locating, selecting, using, describing and evaluating all the resources available to him.



Sometimes laying down to read is relaxing.

Guidance

The Guidance Department's aim is to help each student in their pursuit of their potential. It is concerned with helping the individual develop decision-making skills which are needed in coping with a rapidly changing society. Counselors are concerned with providing all the options possible in personal, educational, and career decisions. The counselor is many things to the William Tennent Senior High School student: a consultant to teachers and parents, a team member with the other members of the pupil personnel staff, an interpreter of records and tests, a source for a wide variety of information, a helper for the struggling student, a friend, a confidant, an advocate. Some of the services of Guidance include: individual counseling, group counseling, pupil assessment, informational resources, parent cooperation, referral services, orientation of students, pupil records, placement, research and evaluation. Counselors are available at all times to present students and parents as well as past students and graduates for counseling.

The Story of William Tennent

In 1726, the Reverend William Tennent came to "the Forks of the Neshaminy" to minister to the English, Scotch, Irish, and Dutch immigrants who had settled in that area. It was believed that William Tennent Supervised the construction of a church in 1727 on the rise of ground in what is now a cemetery. In 1739, George Whitefield, the celebrated English evangelist, was a guest speaker to an audience of nearly three thousand people.

Stones from the original building were used to repair the old cemetery wall, including the date stone (1727) which may still be seen in the wall at the entrance gate to the Cemetery Chapel.

Because there were no schools in Pennsylvania for the education of Presbyterian ministers, Tennent educated his sons in his own home. Feeling that such a school was needed, on September 11, 1735, he purchased a farm near the present site of Christ's Home and erected a log house about 20 by 18 feet on his land for such a purpose. It was here that he taught his own sons as well as other boys who were interested in an academic Christian education. There were no dormitories; the young men were boarded and lodged in the neighborhood. The origin of 63 colleges and universities can be traced to the influence or work of the men whom Tennent trained in this small, humble structure. After Mr. Tennent died in 1745, the school ceased to be.

On September 5, 1889, President Benjamin Harrison, Postmaster General John Wanamaker, and Governor Beaver of Pennsylvania came to the site of the Log College to address a gathering of 12,000 in honor of the founder of this simple but great school. In 1926 a stone monument was erected and dedicated.

Because of William Tennent's great influence as an educator in Pennsylvania and also in the eastern part of our country, the school boards of Ivyland, Upper Southampton, and Warminster respectfully named the William Tennent High School in his honor.

Kelly Barbara McCloskey, President

The Junior Class extends its appreciation to the Seniors for the friendship, guidance, and encouragement they gave us during this school year. We also desire to extend our best wishes for the future of each member of the Class of 1980. May God Bless all you pursue.

Student Government

The Student Government of William Tennent SHS provided many activities and services for the school and community. Highlights for the year, socially, included the Welcome Back Dance in September, the Bonfire and Seven Crowns Dance in November, and a successful Holiday Dance in December. Perhaps the most exciting event was the Senior Sweetheart Coronation and Dance in February. In addition, the Student Government served the community with collections for Penny Day, Thanksgiving Baskets for the needy families, transportation for senior citizens to the Senior Play, and a "Dinner for Those Who Serve" for the Workers in the Centennial School System.

Chess Club

Our Tennent Senior Chess Team had a "checkered" season during the fall of '79. We finished in 4th place in the 10 team Lower Bucks Interscholastic Chess League. The league itself was unusual because it included such far-flung schools as Pen-Treaty and Vaux Jr. High in Philadelphia and the Youth Development Center in Trevose.
Individual highlights for us were the opportunity to play competitively the nationally ranked Vaux Team; and *Bob Lubanski's* and *Len Speakman's* individual contributions. They finished 7th and 6th respectively among the 50 odd chessman who played in the league.

Health Careers Club

One of the primary functions of the Health Careers Club is to familiarize its members with many of the health fields. Activities organized throughout the year which fulfill this goal include "Meet the Colleges Night", Hospital tours, First Aide and CPR courses, and guest speakers. The HCC has also taken an active interest in community projects and visits the elderly at "Centennial Springs" Senior Citizens Home. At holiday times, bringing them companionship and handmade gifts.
Mr. Depree, the club sponsor, with her confidence, good insight, warmth and ability to motivate others is the clubs most valuable asset.

This year's team finished a strong second place. Mitch Grobman was second highest scoring individual out of 70 area students participating in Mathletes.

Ski Club

The Ski Club endeavors to make available to interested students a winter sports activity in which they might not otherwise have the opportunity to participate. The experience of traveling in a group of friends and classmates to a distant ski resort, there to engage in a wholesome and exhilarating test of will against the forces of mountains and nature, is one long cherished by ski club members. Although our ski season was overshadowed by a conspicuous lack of snow, we were nonetheless fortunate to have enjoyed two super weekend trips.

Our first trip was to the Catskills in New York State, where we ventured on to the slopes of Hunter Mountain and sought respite after the days last mogul-ridden run at an absolutely first class Holiday Inn.

Our second trip, a somewhat arduous ten hour journey to the expansive winter playland of northern Vermont, brought us to the challenging trails of Burke Mountain.

With a hearty HO we congratulate our graduates and bid them all — THINK SNOW!

Computer Club

The computer club met twice a week after school. At the meetings we ocassionally had instructional periods on various aspects of the school computer. We generally have a period of free study during which the members could learn by doing.

Our goal was to further each members understanding of the computer. We attempted to do this by working together to help solve each others problems.

Members get a chance to cook French foods, play French games, celebrate French holidays, and travel to best experience the way of life of the French. The club has taken day trips to New York and Washington to visit French monuments and museums. Last year the group travelled to France to actually experience life in their society, and this year they are going to Quebec and Montreal.

Stage Crew

The Stage and Light Crews of William Tennent Senior High School consist of students interested in the technical aspect of theatre.

The first day of school, students are needed for lighting and providing microphones. All assembly programs require help from one or both crews. When a production by an outside company is presented, the crews help assemble the props and set up the equipment.

Stage and Lighting Crews assist during various school plays and concerts. This group of dedicated students provide technical knowledge and assistance throughout the year in many varied programs.

There is a distinction between the crews who perform duties year long and those involved specifically in school plays, although some students are in both. The crews for the senior play and all school musical concentrate on the production of the plays.

John Daukas, Tom Dolan, Cindy Bowman, Robn Yaure.

WTHS Radio

The WTHS Radio Station provided music entertainment during lunches. It was operated by students interested in the broadcasting field. The station has also provided a training ground for the future disc jockeys. It is not meant to be a professionally operated station. Records are brought in by the D.J.'s or by students who would like to bring in their own records for them to play. The radio was a valuable and educational experience for all that were involved.

Library Aides

Library Aides help the library staff keep the materials in the library organized. Students using the library are better able to find the materials they need because the aides do such tasks as shelving books, putting magazines away and getting new materials ready to go on the shelves. In contributing their time library aides make it easier for their fellow students to work in the library.

NJROTC

NJROTC is not a class or a subject in the program of studies book, but we do have a club and a drill team. We plan to compete in the Cape May Competition on March 15, 1980. We hope to come home with a trophy. It just goes to show what dedication really is and how it can work. We hope to have a unit next year for the interested students!!!

In 1979-80 Thespian Troupe 1931 was involved in a night of one act plays, a dessert theatre and many conferences and workshops held outside of school.

Yearbook

Congratulations to the 25th graduating class of WTHS. As graduates we will all be going our separate ways. Some may not know for sure which way they are going and yet others have their whole future planned. The best thing to do is to take each day at a time and live your life to its fullest. All through high school we have met many people, made many friends, have many memories and learned a little about life and what to expect of others. Memories could possibly be the biggest of these things and probably the easiest to forget. This is why we have prepared the Silver Anniversary edition of Per Anos, to help you remember all the nice times we shared here at William Tennent and to help you relive some of these memories in future years. Wishing you the best of luck and success in all you pursue.

Team Leaders: Jim Wharton, Tom O'Neill, George Wajda, Jim Kohler and Rob Roney.

Very little was expected from this year's team as so many had been lost to graduation. Nobody would have been upset with a .500 record. Nobody — that is — except the team itself. The players had always been winners and intended to be winners again. Despite losing a lot of players to injuries throughout the season, the senior leaders pulled this team together and achieved a record that was as close to their potential as possible. This was truly a team to make us proud.

Boys Basketball

This year's Panther Squad was very inexperienced with Co-Captain Bob Roney being the only returner from last year's team. The team's efforts were characterized by hustle and determination while improvement made during the season culminated in an exciting come from behind victory over Upper Moreland in the final home game, 43-41. Coach Donnelly will have five underclassmen returning next year.

For the third consecutive time, William Tennent's bowling team has won the Suburban I Title. They also captured first place in a Philadelphia tournament to highlight another successful season. The team finished with a 34-8 record in the league and a 37-8 overall record. The only returning veteran, *Brad Guerra,* provided the experience this year. He established a 179 average, best in the league; however, he had a lot of help from his teammates. Number two bowler, *Bob Lambert,* contributed with 172 average while *Gary Kerstein* and *Harry Tucker* each had 170 averages when the season ended. *Al Zulli* and *Greg Reinecke* filled out the lineup with a 166 average.

With the return of three Varsity Members *(Sue Ballentine, Linda Wolfe, Denise Rimby)* and an equally strong J.V. Team, Tennent should maintain its status as a dominating force in Girls Bowling.

The 1979 Boys' Cross Country Team finished in 3rd place during the Suburban I Duel Meet Season but placed 2nd, one of the teams' best races, in the League Championship Meet. The League Championship also gave notice of a very promising future as Tennent's underclassmen took the first seven places in the J.V. race.

Joe McGorrey concluded an illustrious High School career by setting numerous course records. Throughout the year *Joe* proved to be the equal of some of the best runners in Pennsylvania. *Joe* became the 18th member of the Cross Country Hall of Fame.

Seniors played a very prominent role in the 1979 Team's success. Seniors in the top seven were: *Francis Belfield* (2nd man), *Curt Welsh* (1st year running for Tennent), *Rich Weiss* (3rd year runner), *Joe Paulits* (Co-Captain). Other seniors of the Boys' Cross Country Team were: *Norm Fredrick* (2 years), *Keith Froggatt* (4 years) and *Bill Hartley* (1 year).

Girls' Cross Country

I can think of no sport that is as mentally demanding as Cross Country. To be competitive an individual needs ability, strength, endurance and mental discipline. If nothing else, those runners who finished out the season have proven to themselves that they have strengths and abilities previously untapped.

Cross Country is a sport that is both team and individual-oriented. An athlete competes for his school and with his teammates (her in this case), and at the same time runs against the stop watch and himself. This makes Cross Country a unique sport. It is possible to win without having a runner take first or lose although the first runner wins.

Actually, Girls' Cross Country is a new sport. Last year the girls competed as a club; this year they were incorporated into the interscholastic program. This is indicative of increased interest in competition on the varsity level by young ladies.

The record of the team — 7 wins, 5 losses — does not truly reflect the dedication of the girls who worked from the middle of August to the end of October. The discipline and drive they developed will, I am sure, be reflected in whatever they choose to do. I am proud to have worked with these ladies.

Score!!

The 1979 Varsity Soccer Team achieved new heights of soccer success this season. For the first time in our history the Panthers participated in the PIAA District I Playoffs. Unfortunately, we suffered a 1-0 defeat by Central Bucks East in an exciting, tough, action-packed game.

The Panthers were deadlocked in a four team tie for second place in Suburban I at the completion of the regular season. By defeating Methacton 1-0 and Abington 3-0, the Panthers took sole possession of second place in Suburban I and the right to participate in District I Playoffs.

Senior *Pat Mancke*, a three year Varsity starter, distinguished himself by being selected to the All District I First Team and All-State Teams.

The J.V. Team finished with an outstanding 9-2-2 Suburban I Record. The J.V.'s allowed the fewest goals in the league.

Congratulations to all of our Players for two very successful seasons.

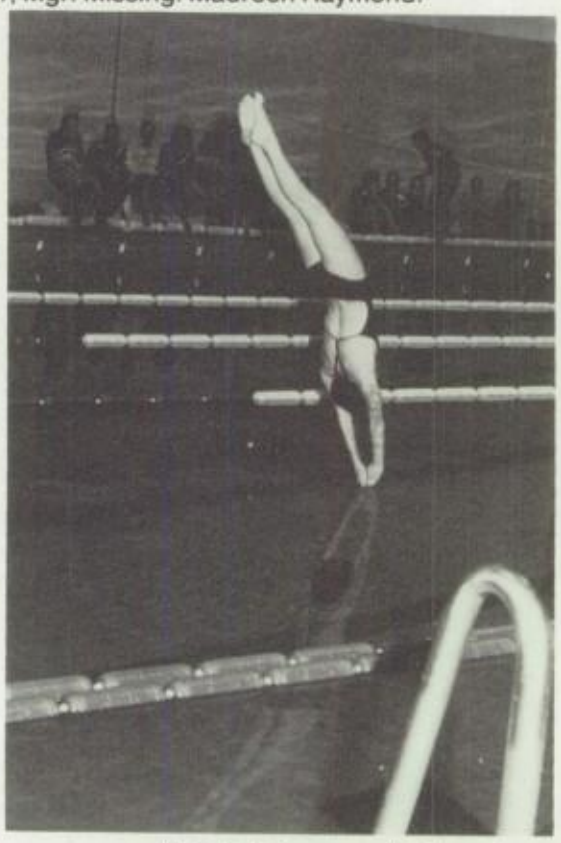
The divers had an excellent year under the coaching of Miss Sandy Loeffler. Three divers qualified for District competition: Tami Weber, Nickie Stefanelli and Beth Boyle. Tami took second in the Suburban Championships, third in Districts and set a new team record for points scored in dual meet. Tami's place in the district meet allowed her the honor of traveling to the State Meet as the alternate diver.

Captain Lori McQueston and Co-Captains Methy Gallagher and Jane Kimmerle were fine leaders both in and out of the water. All three girls qualified to compete in the District Meet as did Lisa Midthassel, Diane Muntzer, Jeanne Belfield, Eve Elliott and Tracy Firth. Lori placed sixth in the 50 freestyle and qualified to compete in the State meet for her fourth year. A new team record was set this year by Jeanne Belfield in the 100 yd. breast stroke.

A most memorable experience for this year's team was the trip to Florida. Twenty-four members attended the National Swim Forum in Ft. Lauderdale for a ten day training period over the Christmas Holidays.

Red overalls, new panther mascots, lots of determination and a Together-We-Can attitude characterize this year's Championship Team.



It looks just as good in the mirror.
